## ANTIQUÉ AUTO MEET

March 29, 2020

To all International participants and member clubs,

The onslaught of the Covid-19 pandemic has forced many major and abrupt changes in the social demographic landscape around the globe. Closer to home, cancellation of large social events, whether inside or outdoors, has become a necessary requirement in order to prevent or at least minimize the spread of the virus. We are all witness to the immense effort being made by our neighbors, whether across the street or across the border. To that end the decision has been made by the Spokane group to cancel this year's International Car Meet until next year.

The HASSIE club will be issuing 100% refunds to all those who have registered to date, and would whole heartedly like to thank everyone for their show of support since registrations opened in February. As a reminder, please also remember to inform your hotels of your booking cancellations so as not to incur any penalties for not showing up and honoring your reservation (it's been known to happen!) Should you have any questions, feel free to contact Gene McKay or Gary Graupner at their respective phone numbers as printed on the registration form.

At this time, the members of the Spokane International committee would like to wish all of their antique car hobbyists, friends and colleagues a safe journey through these uncertain times and look forward to seeing everyone at next year's car meet. Stay safe, be strong and remember we are all in this together.

Respectfully yours,

*Keith*

Keith Robertson  
International Chairman
